JHONNYSALOMON Fall 2011

## FLAWLESS FOR FALL

### **Yes, summer is coming to an end**

No matter how careful you've been this summer in applying sunscreen and covering up under hats and umbrellas, your complexion has been mottled with new dark spots and lined with wrinkles. The biggest culprit: the sun's ultraviolet rays. Exposure to the sun's UV rays account for 90% of premature aging - meaning sunspots, blemishes, and wrinkles.

On a good note, all these wrinkles and summer spots react well to treatment, and even better when treatment is done at Dr. Jhonny Salomon Plastic Surgery and Med Spa.

For getting rid of those unsightly wrinkles, Jhonny Salomon Plastic Surgery and Med Spa

offers a myriad of treatments, some of the most popular being injectables. These modern medicinal miracles consist of Botox and Dysport, that act as muscle relaxers to block muscle contractions that create wrinkles, and Fillers, which work to soften and "fill" in wrinkles. Both work at the same goal: to give you a more youthful, softer, and wrinkle-free appearance. Thermage is also a fantastic remedy for unwanted wrinkles and loose skin. The radio frequency heats the dermis, meanwhile cooling and protecting the epidermis, and causes immediate collagen contraction followed by new collagen production.

## skin resurfacing lasers are the gold standard

Boasting the most advanced technology, Thermage is the only non-invasive method to tighten loose skin!

Looking to get rid of wrinkles and dark spots? For combatting both complexion killing blemishes and wrinkles, skin resurfacing lasers are the gold standard. Here at Jhonny Salomon Plastic Surgery and Med Spa, we are proud to offer one of the decades anti-aging breakthroughs : the Fractional CO2. This laser uses beams of energy light to bore tiny holes into the skin, which works to stimulate the production of collagen, the main protein of connective tissue that keeps skin plump and line free.

Another fantastic option at Dr. Jhonny Salomon's would be the Fraxel Laser. The Fraxel works similarly to the Fractional CO2, however, the Fraxel does not penetrate as deep into the skin's layers as the Fractional CO2. It is because of

this that 3-6 treatments are suggested to see ideal results. For wrinkles and dark spots that are not as pronounced as most, the Gentle Yag machine or IPL would work perfectly!

Another great option to lasers and injectables would be products. There are a number of skin care products available at Dr. Jhonny Salomon's that specifically target hyperpigmentation and wrinkles, the best of which being the Éclat Medical Product Line. Consisting of 5 phenomenal products, this line is not only easy to use, but it actually works! If you are not yet ready to commit yourself to using products, then an Éclat Peel is just what you need. With spectacular results after just one treatment, this non-invasive and painless peel is converting the faces of many.

Whether it be injectables, lasers, or an Éclat Peel, Jhonny Salomon Plastic Surgery and Med Spa will leave you flawless for fall!

## All About Éclat

**Jhonny Salomon Plastic Surgery and Med Spa is proud to announce the arrival of the long-awaited Éclat Product Line. The most advanced skin care system available, its pharmaceutical grade ingredients are scientifically proven to support and stimulate healthy function of the skin. Éclat targets uneven skin tone, hyper-pigmentation, age spots, fine lines and wrinkles, enlarged pores, acne, and environmental damage. Combining the best in prescription ingredients with powerful, all natural, botanical ingredients, Éclat is the best of both worlds!**

### CLARIFYING CLEANSER

While gently removing impurities, oil, and makeup, this mild gel-based cleanser prepares and conditions skin to optimize the penetration of the system and enhance your skin's clarity. Formulated with a soothing Aloe Vera base and scented with grapefruit essential oil, Éclat Clarifying Cleanser contains the antioxidant and calming powers of Green Tea, Azelaic Acid, Willow Bark, Sugarcane, and Lemon.

**“Designed to enhance your skin's natural beauty, preserve it's texture and tone, and restore it's radiant glow, ÉCLAT represents the most exciting advance in skin care this decade!”**

### REJUVENATING SERUM

The rejuvenating serum represents the powerhouse of the Éclat product line. Combining ingredients like Glycolic Acid and Retinol, this one of a kind product diminishes the appearance of fine lines, wrinkles, and enlarged pores, infusing the skin with a younger look. The Rejuvenating Serum's unique formula provides for greater penetration to rejuvenate and enrich skin not only on the surface level, but on the cellular level as well. There are 3 different types of rejuvenating serums. Depending on your skin type and specifics, one will be chosen to best suit you.

### TRENTINOIN .1%

This prescription chemical exfoliant is used to treat environmental damage, reduce the appearance of fine lines, wrinkles, and enlarged pores, and slow the aging process. Trentinoin works by accelerating cell turnover which, in turn, rids your the skin of unwanted dead skin cells, revealing new healthy skin for a firmer, more even-toned, radiant look. As if Trentinoin alone was not already perfect, Éclat has taken it and infused into it Vitamin E and Vitamin C to soothe and further enrich the skin. Éclat Trentinoin is to be used in conjunction with the Rejuvenating Serum.

### VITAMIN C GEL 20%

The Vitamin C Gel is a revolutionary antioxidant combination that delivers ultimate protection against free radicals, helps to rebuild collagen, and provides peerless antioxidant protection against photo-aging. This product corrects existing damage by stimulating essential proteins in the skin while aiding in cell turnover. Éclat

Vitamin C Gel prevents future damage by arming your skin with powerful antioxidants and enzymes to combat threatening factors. The results are unparalleled: On the inside, a strengthened and healthy skin structure with improved defense against environmental damage, while on the outside a brighter, tighter, and more brilliant appearance for a look that's years younger.

### ILLUMINATING CREAM

The Illuminating Cream's advanced corrective formula directly targets hyper-pigmentation, age spots, unwanted freckles, and scars at the skin's surface and intracellular level. Combining Hydroquinone, a prescription strength ingredient deemed as the best topical constituent in reducing melanin production, with the scientifically proven lightening powers of natural Kojic Acid, Azelaiz Acid, and Licorice Root, this silky cream helps to visibly diminish the appearance of the skin's damage while penetrating beneath the skin's dermal layer to cease and prevent melanosome activity.
